### MEDITATIONS

**G**od provided us with the most sophisticated organism on the planet to house His Holy Spirit and to do His work, yet many Christians choose to ignore how they care for it. Many will argue that God doesn't care about our physical appearance. The word of God says "Dear friend, I pray that you enjoy good health and that all may go well with you, even as your soul is getting along well" (3Jn 2). But the reality is that our overall physical health is much more than how we look and can in many ways affect our heart, the type of person we are or the type of person God wants us to be. Our health can have a direct effect on our mood, our energy level and our ability to serve. Today we are emphasizing the importance of our health, calling our attention to taking good care of this God's gift (our body).
